TERAGO INC.
Notes to the Consolidated Financial Statements
(In thousands, except for per share amounts)
(unaudited)

1. Reporting Entity

TeraGo Inc. (the “Company”) provides businesses across Canada with connectivity services, colocation services and enterprise infrastructure cloud services. The Company’s head office is located in Canada at Suite 800 – 55 Commerce Valley Drive West, Thornhill, Ontario. The Company was incorporated under the Canada Business Corporations Act on December 21, 2000 and owns and operates a carrier-grade, fixed wireless, fibre-based, IP communications network, as well as cloud and colocation facilities in Canada targeting enterprise customers that require cloud, colocation, and connectivity services. The Company’s common shares are listed on the Toronto Stock Exchange (TSX) under the symbol TGO.

2. Basis of Preparation and Presentation

(a) Basis of preparation

These unaudited condensed interim consolidated financial statements (“interim financial statements”) were prepared using the same accounting policies and methods as those used in the Company’s consolidated financial statements for the year ended December 31, 2017 (the “2017 Consolidated Financial Statements”) except as described in Note 3. These interim financial statements are in compliance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”), have been omitted or condensed.

The preparation of financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements have been set out in Note 2 of the Company’s 2017 Consolidated Financial Statements. These interim financial statements should be read in conjunction with the Company’s 2017 Consolidated Financial Statements.

The Company’s operating results are subject to seasonal fluctuations that may materially impact quarter-to-quarter operating results and, thus, one quarter’s operating results are not necessarily indicative of a subsequent quarter’s operating results.

The policies applied in these interim financial statements are based on IFRS issued and outstanding as at September 30, 2018. The Board of Directors authorized the interim financial statements for issue on November 7, 2018.

These interim financial statements include the accounts of TeraGo Inc. and its wholly owned subsidiary, TeraGo Networks Inc.

The notes presented in these interim financial statements include only significant changes and transactions that have occurred since the last fiscal year end.

(b) Functional and Presentation Currency

These consolidated financial statements are presented in Canadian dollars, which is the Company’s functional currency.

3. Accounting Pronouncements Adopted in 2018

a) IFRS 15 Revenue from Contracts with Customers

Effective January 1, 2018, the Company adopted IFRS 15 Revenue from Contracts with Customers. IFRS 15 supersedes the existing standards and interpretations including IAS 18, Revenue and IFRIC 13, Customer Loyalty Programmes. IFRS 15 introduces a single model for recognizing revenue from contracts with customers with the exception of certain contracts under other IFRSs. The standard requires revenue to be recognized in a manner that depicts the transfer of promised goods or services to a customer and at an amount that reflects the expected consideration receivable in exchange for transferring those goods or services. This is achieved by applying the following five steps:

TERAGO INC.
Notes to the Consolidated Financial Statements
(In thousands, except for per share amounts)
(unaudited)

1. Identify the contract with a customer;
2. Identify the performance obligations in the contract;
3. Determine the transaction price;
4. Allocate the transaction price to the performance obligations in the contract; and
5. Recognize revenue when (or as) the entity satisfies a performance obligation.

IFRS 15 also provides guidance relating to the treatment of contract acquisition and contract fulfillment costs.

The Company adopted IFRS 15 using the cumulative effect method, i.e. by recognizing the cumulative effect of initially applying IFRS 15 as an adjustment to the opening balance of retained earnings at January 1, 2018. Therefore, comparative information has not been restated and continues to be reported under IAS 18.

The Company has implemented several processes and policies to ensure the consistent, timely, and appropriate allocation of revenue between performance obligations in contracts with customers.

The adoption of IFRS 15 did not affect the Company's cash flows from operating, investing, or financing activities. Furthermore, the impact on timing of revenue recognition was not material as the treatment of revenue for services rendered over time, which is the method under which Company satisfies the majority of its performance obligations, is consistent under IFRS 15 and IAS 18. The details of the significant changes and quantitative impact of the changes are outlined below.

i) Sale of Bundled Services

The Company offers certain customers bundled connectivity, colocation, and cloud services. Revenue from these arrangements were previously classified based on the nature of the contract. Under IFRS 15, total consideration in contracts with customers are allocated to distinct performance obligations based on their stand-alone selling prices. The Company determined the stand-alone selling price to be the list price at which the Company sells connectivity, and colocation and cloud services. As a result of the allocation of performance obligations under IFRS 15, certain amounts that would have been classified as cloud and colocation revenue are now presented as connectivity revenue.

ii) Service Credits

The Company has obligations for credits under its contracts with customers when certain criteria are met. Credits are recognized net of revenue recognized and presented in total revenue on the statement of comprehensive income.

iii) Contract Costs

IFRS 15 requires certain contract acquisition costs to be recognized as an asset on the statement of financial position and amortized into income over time. The Company typically incurs internal or external sales commissions to obtain contracts with customers. Prior to the adoption of IFRS 15, the Company expensed all commission costs as incurred. The Company now capitalizes these commission fees as costs of obtaining a contract when they are incremental and expected to be recovered. These costs are amortized consistently with the pattern of revenue for the related contracts and are recorded in salaries and related costs on the statement of comprehensive loss.

Contract costs are presented separately as an asset on the consolidated statement of financial position. The Company has opted not to use practical expedients under the cumulative effect method and as a result, the current portion of contract costs are presented in current assets. The current portion represent amounts expected to be amortized in the next 12 months. The Company had to make significant judgments and estimates when estimating certain contract costs incurred in prior years that continue to be incremental and recoverable in the current period.

The following table summarizes the key movement in contract costs during the three and nine months ended September 30, 2018:

TERAGO INC.
Notes to the Consolidated Financial Statements
(In thousands, except for per share amounts)
(unaudited)

	Three months ended September 30		Nine months ended September 30	
	2018		2018	
Opening Balance	\$	1,002	\$	899
Incremental commissions capitalized		239		648
Amortization		(171)		(477)
Balance end of period		1,070		1,070
Less: current		(541)		(541)
	\$	529	\$	529

iv) Contract Assets

Contract assets arise primarily as a result of services offered and provided in advance of payments received from a customer. From time to time, the Company will offer promotions which will give rise to contract assets. These arrangements are recorded in other long-term assets on the balance sheet with current and long-term amounts presented separately on the statement of financial position. The current portion represents the performance obligation to be satisfied and recognized as revenue in the next twelve months.

v) Contract Liabilities

Contract liabilities arise primarily as a result of payment received in advance of providing services to a customer. The Company had previously presented these arrangements as deferred revenue. These payments are now presented as contract liabilities with current and long-term amounts presented separately on the statement of financial position. The current portion represents the performance obligation to be satisfied and recognized as revenue in the next twelve months.

TERAGO INC.
Notes to the Consolidated Financial Statements
(In thousands, except for per share amounts)
(unaudited)

vii) Use of estimates

The Company used estimates in the following areas:

- Determining the enforceable term of contracts required estimating average contract terms based on available historical data
- Significant judgments in determining whether the promises to deliver certain services are considered distinct and represent separate performance obligations
- Evaluating whether costs incurred to obtain a contract were incremental and expected to be recoverable

b) IFRS 9 Financial Instruments

Effective January 1, 2018, the Company adopted IFRS 9 Financial Instruments. IFRS 9 sets out requirements for recognising and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. This standard replaces IAS 39 Financial Instruments: Recognition and Measurement.

The adoption of this standard did not have a material effect on our consolidated financial statements.

i) Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model. The new impairment model applies to financial assets measured at amortised cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments. Under IFRS 9, credit losses are recognised earlier than under IAS 39.

The Company's financial assets measured at amortized cost consist of assets discussed in Note 13.

Under IFRS 9, loss allowances are measured on either of the following bases:

- *12-month ECLs*: these are ECLs that result from possible default events within the 12 months after the reporting date; and
- *lifetime ECLs*: these are ECLs that result from all possible default events over the expected life of a financial instrument.

The Company measures loss allowances for trade receivables and any contract assets at an amount equal to lifetime ECLs. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired.

ii) Measurement of loss allowances

For trade receivables, the Company uses historic actual credit losses as the basis for estimating ECLs and uniformly applies this estimate to its gross balance net of balances already fully impaired at each reporting date. The Company believes this amount to best estimate the expected credit losses.

iii) Presentation of loss allowances

Loss allowances on financial assets measured at amortized cost are deducted from the gross carrying amount of the asset and the related impairment loss is recorded separately on the statement of comprehensive income.

4. Upcoming accounting pronouncements not yet adopted

The IASB has issued new standards and amendments to existing standards. These changes are not yet adopted as at September 30, 2018 and could have an impact on future periods.

IFRS 16 Leases

On January 13, 2016, the IASB issued the final publication of the IFRS 16 standard, which will supersede the current IAS 17, Leases standard. Under IFRS 16, a lease will exist when a customer controls the right to use an identified asset as demonstrated by the customer having exclusive use of the asset for a period of time. IFRS 16 introduces a single accounting model for lessees and all leases will require an asset and liability to be recognized on the statement of financial position at inception.

The standard is effective for annual periods beginning on or after January 1, 2019 with early adoption permitted, but only if the entity is also applying IFRS 15. The Company has a dedicated team to assess the impact of IFRS 16 and the team has started gathering the information necessary to evaluate the impact of the standard. The team is expected to quantify the impact of the standard upon completion of their assessment.

5. Revenue

The Company's operations and main sources of revenue are those described in the 2017 Consolidated Financial Statements. The Company's revenue is primarily derived from contracts with customers.

The effect of initially applying IFRS 15 on the Company's interim financial statements is disclosed in Note 3(a).

Satisfaction of performance obligations

The Company measures the timing of satisfaction of its performance obligations from contracts with customers consistently across all the Company's performance obligations: as services are provided (typically on a monthly basis).

Disaggregation of revenue

In the following table and in accordance with IFRS 15, the Company's disaggregates revenue into two primary categories that depict the nature of its revenue streams.

	Three months ended September 30		Nine months ended September 30	
	2018	2017*	2018	2017*
Cloud and Colocation Revenue	\$ 5,190	4,705	\$ 14,815	14,234
Connectivity Revenue	8,814	8,975	26,612	27,615
	<u>\$ 14,004</u>	<u>13,680</u>	<u>\$ 41,427</u>	<u>41,849</u>

*The Company has initially applied IFRS 15 using the cumulative effect method. Under this method, the comparative information is not restated.

6. Current Assets

Details of selected current asset balances are as follows:

(a) Cash and cash equivalents

The Company's cash and cash equivalents are comprised of bank balances at major Canadian financial institutions.

(b) Accounts receivable

The Company's accounts receivable is comprised of the following:

Impairment	(1,019)	-	-	-	-	-	(1,019)
Balance, September 30, 2018	\$ 119,457	\$ 14,551	\$ 3,135	\$ 2,358	\$ 3,126	\$ 49	\$ 142,676
Accumulated Depreciation							
Balance, January 1, 2018	\$ 90,454	\$ 3,902	\$ 2,542	\$ 2,222	\$ 1,263	\$ 49	\$ 100,432
Depreciation for the period	5,452	658	686	37	319	-	7,152
Disposals / Adjustments	(1,421)	462	(465)	-	1	-	(1,423)
Impairment	(588)	-	-	-	-	-	(588)
Balance, September 30, 2018	\$ 93,897	\$ 5,022	\$ 2,763	\$ 2,259	\$ 1,583	\$ 49	\$ 105,573
Net Book Value, September 30, 2018	\$ 25,560	\$ 9,529	\$ 372	\$ 99	\$ 1,543	\$ -	\$ 37,103

During the three and nine months ended September 30, 2018 the Company wrote off assets with net book value \$104 (Cost of \$331 less accumulated depreciation of \$227) and \$360 (Cost of \$1,783 less accumulated depreciation of \$1,423) respectively, to reflect inventory adjustments and disposals (2017 – (\$1) and \$94, respectively). The corresponding loss on disposal was included in other operating expenses.

Impairment

As result of the loss of certain customers and customer locations in primarily connectivity offerings during the three months and nine months ended September 30, 2018, the Company determined that certain network assets were not recoverable. The assets were subsequently written down to their recoverable amount and an impairment charge of \$64 (Cost of \$153 less accumulated depreciation of \$89) and \$431 (Cost of \$1,019 less accumulated depreciation of \$588) respectively, was recorded in other operating expenses on the statement of comprehensive loss (2017 - \$nil and \$nil, respectively).

On September 18, 2018, TeraGo entered into a share purchase agreement to acquire all of the issued and outstanding shares of Mobilexchange Spectrum Inc. and its parent holding company Mobilexchange Spectrum Holdings Inc. (collectively, "MSI") for aggregate cash consideration of \$5,700. The acquisition is being funded through the net proceeds of TeraGo's bought deal equity offering which previously closed on June 18, 2018. On November 1, 2018, TeraGo received a letter from ISED setting out its approval for the deemed transfer of the six 24 GHz spectrum licences currently held by MSI, pursuant to an application that was filed in connection with the acquisition. Closing of the acquisition is expected to occur in November, 2018, subject to customary closing conditions and as a result, has not yet been reflected in the Company's financial statements.

9. Long-term Debt

	September 30 2018	December 31 2017
Term debt facility	\$ 33,586	\$ 36,611
less: financing fees	(336)	(428)
	33,250	36,183
less: current portion	(4,000)	(4,000)
	\$ 29,250	\$ 32,183

Term Debt Facility

In June 2014, the Company entered into an agreement with a syndicate led by the National Bank of Canada ("NBC") to provide a \$50,000 credit facility that is principally secured by a general security agreement over the Company's assets.

In March 2015, the Company entered into an amended agreement with the syndicate led by NBC that increased the credit facility by \$35,000 (\$30,000 increase to the term debt facility and \$5,000 increase to the revolving facility) and extended the term from June 6, 2017 to September 30, 2018. Other terms were substantially consistent with the existing credit facilities.

In June 2017, the Company entered into a second amended agreement with the syndicate led by NBC that reduced the term debt facility from \$50,000 to \$40,000 (as a result of principal previously repaid), reduced the quarterly principal installment from \$1,250 to \$1,000 and extended the term from September 30, 2018 to June 14, 2021. Other terms were substantially consistent with the existing credit facilities.

The total \$75,000 facility that matures June 14, 2021 is made up of the following:

- \$10,000 revolving facility which bears interest at prime plus a margin percent. As of September 30, 2018, \$nil amount is outstanding (2017 - \$nil). Letters of credit issued under the facility totaled \$655 as of September 30, 2018 (2017 - \$655).
- \$40,000 term facility which bears interest at prime or Banker's Acceptance (at the Company's option) plus a margin percent and is repayable in quarterly principal installments of \$1,000. This facility was fully drawn upon signing the

TERAGO INC.
Notes to the Consolidated Financial Statements
(In thousands, except for per share amounts)
(unaudited)

second amended agreement.

On September 30, 2018, \$33,800 of the term facility principal balance outstanding was in a Banker's Acceptance and the remaining \$200 was at a floating rate. During 2018, the Company entered into two amended interest rate swap contracts that mature June 29, 2021. The interest rate swap contracts have not been designated as a hedge and will be marked-to-market each quarter. The fair value of the interest rate swap contracts at September 30, 2018 was a liability of \$12 (December 31, 2017 – asset of \$27) and is recorded in other long-term assets/liabilities (Note 10), with a corresponding charge (recovery) for the change in fair value recorded in finance costs. The effective interest rate on the Company's long-term debt at September 30, 2018 was 5.34% which represents the Company's interest on its Banker's Acceptance net of its interest swap contracts.

As at September 30, 2018, the Company prepaid interest in the amount of \$414 which represents the net settlement of the Banker's Acceptance and is recorded as a reduction in the carrying value of the debt.

- \$25,000 available for funding acquisitions and will bear interest at prime plus a margin percent and is repayable in quarterly principal installments of 2.5% of the aggregate amount outstanding. As of September 30, 2018, this facility remains undrawn.

Financing fees incurred as part of the Company's debt origination and modifications have been recorded as a reduction in the carrying amount of the debt and deferred and amortized using the effective interest method over the remaining term of the facility.

The NBC facility is subject to certain financial and non-financial covenants which the Company is in compliance with at September 30, 2018. Under this facility, the Company is subject to a cash flow sweep that could accelerate a certain amount of principal repayment based on a calculation outlined by the credit agreement not later than 120 days after the end of each fiscal year.

10. Other Long-Term Assets/Liabilities

11. Stock-Based Compensation

(a) Stock Options

For the three and nine months ended September 30, 2018, the Company recorded stock-based compensation related to stock options of \$22 and \$79, respectively. For the three and nine months ended September 30, 2017, the Company recorded stock-based compensation related to stock options of \$16 and \$51, respectively.

A summary of the status of the Company's stock option plan as at September 30, 2018 is presented below.

	2018	
	Number of Options	Weighted Average Exercise Price
Outstanding - January 1, 2018	588	\$5.58
Exercised	(517)	\$5.74
Forfeited / Expired	(1)	\$6.25
Outstanding - September 30, 2018	70	\$4.40
Exercisable	13	\$4.40

(b) Restricted Share Units (RSUs)

For the three and nine months ended September 30, 2018, the Company granted nil and 151 RSUs, respectively, to certain key executives. For the three and nine months ended September 30, 2017, the Company granted 28 and 180 RSUs, respectively, to certain key executives.

For the three and nine months ended September 30, 2018, the Company recorded compensation expense of \$110 and \$291, respectively, related to the RSUs granted and paid \$nil and \$nil, respectively, to the holders of RSUs that vested in the period. For the three and nine months ended September 30, 2017, the Company recorded compensation expense (recovery) of \$34 and (\$2), respectively, related to the RSUs granted and paid \$nil and \$587, respectively, to the holders of RSUs that vested in the period. As of September 30, 2018, a liability of \$463 (December 31, 2017 - \$171) related to the RSUs outstanding is included in other long-term liabilities (Note 10(b)).

The following table is a summary of the number of outstanding RSU as at:

	September 30 2018
Opening Balance, January 1, 2018	149
Granted	151
Forfeited	(18)
Vested and paid	-
Ending Balance, September 30, 2018	282

(c) Performance Based Share Units (PSUs)

For the three and nine months ended September 30, 2018, the Company recorded stock-based compensation expense (recovery) of \$7 and \$20, respectively, related to the PSUs outstanding and paid \$nil and \$nil, respectively, to the holders of the PSUs that vested in the period. For the three and nine months ended September 30, 2017, the Company recorded stock-based compensation expense (recovery) of (\$115) and (\$224), respectively, related to the PSUs outstanding and paid \$nil and \$57, respectively, to the holders of the PSUs that vested in the period. As at September 30, 2018, a liability of \$63 (December 31, 2017 - \$43) related to the PSUs granted is included in the other long-term liabilities (Note 10(b)).

The following table is a summary of the number of outstanding PSUs as at:

TERAGO INC.
Notes to the Consolidated Financial Statements
(In thousands, except for per share amounts)
(unaudited)

	September 30
	2018
Opening Balance, January 1, 2018	19
Granted	-
Vested and paid	-
Forfeited / Expired	-
Ending Balance, September 30, 2018	19

(d) Stock-Based Compensation Summary

The following table is a summary of the stock-based compensation expense (recovery):

	Three months ended		Nine months ended	
	September 30		September 30	
	2018	2017	2018	2017
Restricted share units	\$ 110	34	\$ 291	(2)
Performance-based share units	7	(115)	20	(224)
Stock options	22	16	79	51
Directors' fees paid in shares	111	73	294	220
	\$ 250	8	\$ 684	45

12. Loss Per Share

The following table sets forth the calculation of basic and diluted loss per share.

	Three months ended		Nine months ended	
	September 30		September 30	
	2018	2017	2018	2017
Numerator for basic and diluted loss per share:				
Net loss for the period	\$ (47)	(1,047)	\$ (2,848)	(3,233)
Denominator for basic and diluted loss per share:				
Basic weighted average number of shares outstanding	15,736	14,334	14,910	14,292
Effect of stock options, RSUs and PSUs	-	-	-	-
Diluted weighted average number of shares outstanding	15,736	14,334	14,910	14,292
Loss per share:				
Basic	\$ (0.00)	(0.07)	\$ (0.19)	(0.23)
Diluted	\$ (0.00)	(0.07)	\$ (0.19)	(0.23)

Due to the loss for the three and nine months ended September 30, 2018, the impact of all the options, RSUs, and PSUs totaling 380 and 414, respectively (2017 – 813 and 891), were excluded in the calculation of diluted loss per share because they were antidilutive.

13. Fair value of financial instruments

The following table outlines the carrying amounts and fair value of its financial assets and financial liabilities including their level in the fair value hierarchy. Cash and cash equivalents, accounts receivable, accounts payable, and accrued liabilities are not shown below as the carrying value of these financial instruments approximates their fair value due to their short-term maturities.

a) Classification and fair values

	<u>Carrying Amount</u>		<u>Fair Value (Level 2)</u>	
	<u>September 30 2018</u>	<u>December 31 2017</u>	<u>September 30 2018</u>	<u>December 31 2017</u>
Financial Assets				
Interest rate swap contract	\$ -	\$ 27	\$ -	\$ 27
Financial Liabilities				
Interest rate swap contract	\$ 12	\$ -	\$ 12	\$ -
Long-term debt	33,250	36,183	33,250	36,183

b) Credit risk

During the nine months ended September 30, 2018, the movement in the credit loss allowance in respect of trade receivables was as follows:

	<u>September 30 2018</u>
Opening Balance, January 1, 2018	21
Amounts written off	(21)
Remeasurement of loss allowance	49
Ending Balance, September 30, 2018	<u>49</u>

14. Equity Offering

On June 18, 2018, the Company completed an equity offering to issue and sell 1,303 common shares for gross proceeds of \$6,906 (the "Offering"). Proceeds net of commissions, legal, accounting and listing fees was \$6,067. The Offering was carried out pursuant to an underwriting agreement dated June 4, 2018 with a syndicate of underwriters led by TD Securities Inc., and included Cormark Securities Inc. and Desjardins Securities Inc.
